

## Project Proposal

**Topic:** Basketball

Based on the data we obtained from Kaggle, we will be merging them into one main data to provide a thorough details on each NBA teams, stadiums and players impact.

### List of Data Sources:

Kaggle- [https://www.kaggle.com/nathanlauga/nba-games?select=games\\_details.csv](https://www.kaggle.com/nathanlauga/nba-games?select=games_details.csv)

### Potential Visualization:

- Which stadium has the most points/ total games.
- Which city has the most points/ total games
- Each players impact

### Roles:

- Merging/cleaning – all
- Plotly- TBD
- Leaflet- TBD
- D3 - TBD

### Inspiration:

Being NBA fans, we want to present NBA data that could provide others more insight of the sport.
